

Solution Guide

FW-5000 Package

Seyeon Tech Co., Ltd.

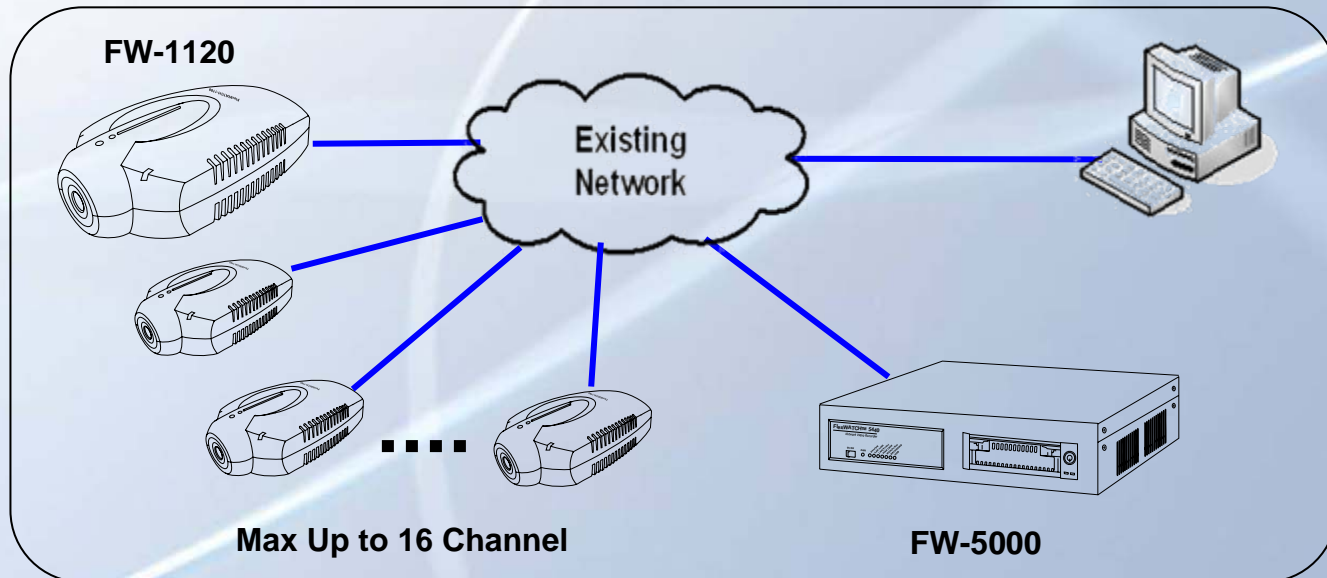

What is 5000 Package?

◆ 5000 Package is a Full Digital Video Surveillance

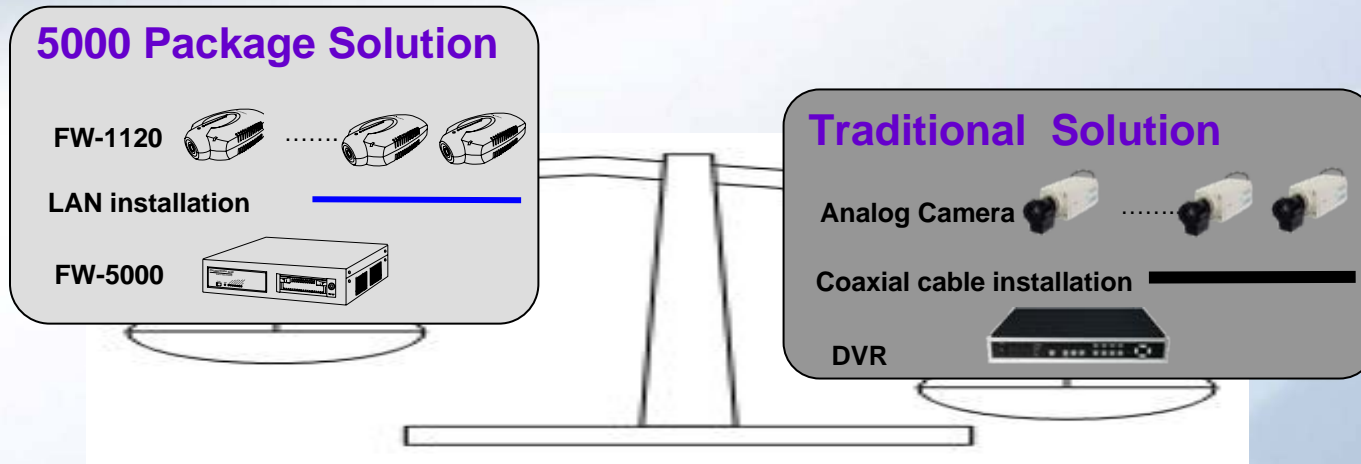

✓ 5000 Package Provides:

- Cost Effectiveness
- One Step Installation method
- QuadPlex Function
- Uniqueness and Differentiation

✓ 5000 Package Composition

◆ Why Cost effectiveness?

◆ Why One Stop Installation?

- ✓ Do not need to know the IP technology
 - LAN cabling effort is much lower than coaxial cabling
 - Just plug network cable and run installation wizard software

◆ Why QuadPlex?

- ✓ Realtime Live View, Playback, Network, Backup
 - Very Scalable, reliable and distributed system

- ◆ **FW 5000 Package provides a unique concept**
 - ✓ Most CCTV Dealers look for unique and different solutions to compete with traditional CCTV Dealers.
- ◆ **FW 5000 Package lowers the labor cost**
 - ✓ Due to the price war, CCTV installers take the profit from the installation itself. FW 5000 package reduces the installation time and the overall cost.
- ◆ **FW 5000 Package binds the customer to Dealers**
 - ✓ CCTV Dealers can provide additional service to customers such as remote monitoring and maintenance.

Cost Effectiveness

Using existing network environment
Cost of UTP cable installation is lower than coaxial cable installation

One Step Installation

Do not need to know IP technology

Quadplex

Real time Live View, Playback, Network, Backup
Scalable: Easily expandable for future solution
Reliable and distributed system

Differentiations

Provides unique concept
Lower labor costs
Binds the customer to Dealers
